Bill has a 9:00-11:00 am slot open on Friday April 3<sup>rd</sup> to discuss the needs of the district in terms of transparency, project activities, fuels monitoring and our ability/desire to react to public comments related to vegetation management activities.

Let me know if you can attend.

We will be discussing current and future ways of:

Notifying the public of current activities (press releases, website, project specific signs, etc)

Response to public comments

Monitoring (did we do what we said we were going to do)

Additional workload and relationship to program of work/current funding

Let me know if you can make it.

Thanks - Cary
